Submissions:

Authors are invited to submit original unpublished research papers written in English that are not more than 12 pages (single column including figures, tables and references) via EquinOCS Springer Nature Submission System.

ASCAT 2026 through EquinOCS

(<https://equinocs.springernature.com/service/ascat2026>)

Submissions should be double-blind and it should contain original research that has not previously been published. Concurrent submissions to other conferences/journals are not allowed. Supplementary material that exceeds the above mentioned page limit may be included as an appendix and will be considered at the committee's discretion (note that appendices will not be published in the proceedings).

Submissions must be formatted in LaTeX or Microsoft Word using the standard Springer single column format and submitted in Portable Document Format (PDF). For each accepted paper, at least one author has to complete full registration and present the paper. Papers authored or co-authored by PC members are also welcome and will follow a specific evaluation process.

Proceedings:

Accepted papers of the conference will appear in the proceedings published by Springer Nature.
